OCAL INTELLIGENCE.

DEN DEATH.—Yesterday morning a man, named Edward N. B. Portman, nown in town and on Fraser River, d at the American Saloon, Yates after but a few hours' illness, under ar circumstances. The barkeeper at merican states that about half-past o'clock on Saturday morning the sed, evidently in good health and , entered the saloon and called for ing to drink, which was given him; drinking, he said he had been out ght, and had gone that morning to the of a friend to take breakfast; but not g able to eat anything, he left before family had concluded the repast. ortly after took another drink at the saloon, in company with two or three s, and while standing talking to them, uddenly observed to roll his eyes about y, and seemed about to fall, when his ls caught him in their arms and con- him into the back room. He was taken with a fit, which developed in spasms and convulsions. He was pon a bed, and for a short time was crazy. In about ten minutes he re- ed sufficiently to get up and walk the room; but was shortly again taken a fit, and continued thus at intervals our o'clock in the afternoon, when or Rumsey was summoned. Doctor dministered to him a dose of medicine iet his nerves; but it not having the de- effect, shortly after another dose was him. The spasms still continued to t him, however, and in another hour a dose was administered. At six ck he fell into an uneasy slumber, his symptoms becoming alarming at past 11 o'clock, Dr. Trimble was sent by whom and Dr. Rumsey every exer- was made to arouse deceased but without l, and he expired shortly after three ock. An inquest will be held this ning at 10 o'clock by the coroner, Dr. kson, when the cause of his sudden de- e will probably be developed. The de- sed was highly connected in England, which country he was a native, having n born in the county of Dorsetshire. He also some relations here, who are much ressed at his sudden death. He was merly a lieutenant in the Royal Navy, was present at, and took an active part the bombardment of Sweaborg, during Russian war. At the time of his death held a surveyor's commission for British umbia, and last fall surveyed land at t Hope and in the Similkameen districts, which places he acquired many warm nds.

SAY THERE IS NO TRUTH IN IT.—Capt. ader and Mr. Geo. A. Reynolds, of the k Glimpse, arrived in town on Saturday denied the truth of the statements made the passengers and crew of the brig nsort in regard to their vessel declining render them assistance while disabled off pe Flattery. Messrs. R. and R. informs that the date upon which the Consort's ople allege to have seen their bark was 8th of November, at which time the impse was unloading at Pearse & Boyce's harf.

THE GREAT RACE.—The most interesting e ever known here will come off to-mor- w at Beacon Hill Course, between Par- r's bay gelding "Moustache," and Robert's eam-colored gelding, name not stated. Moustache" is not unknown to fame on r turf—having won several purses at for- er races. The "colt" is Oregon-bred, and s ran twice before. The wager is $2000 ide; mile heats; best two in three; play pay. The race promises to be a very ex- ting and interesting one, and large sums money have been staked on the result.

THE FIGHTERS.—Jesse Gouhagen, a col- ed man, arrested for fighting with James atterson on Friday night last, on the corner Johnson and Government street, and try- g to bite his antagonist's finger off, was up the police court on Saturday. This case as remanded till to-day. Jas. Patterson, e man with whom Jesse fought, was fined fty shillings—cheap enough considering e amount of noise he made.

VICTORIA THEATRE.—There was a good house on Saturday evening at the benefit of Mr. A. R. Phelps. "King Henry the Fourth" was presented in a most excellent manner, and reflected credit upon the managers as well as the actors. In Falstaff, Mr. Stark was inimitable. It was played better than any character that gentleman has essayed since his arrival here, and we regret that the short time the company have to remain here will not permit of its being again performed. Mr. Phelps, the beneficiary, in the character of Henry, Prince of Wales, was also excellent, and sustained his previous reputation as an actor. This evening, benefit of Mrs. Stark.

BENEFIT OF MRS. JAMES STARK.—This evening, Mrs. Stark, a most deserving lady and *artiste*, will take a benefit at the Victoria Theatre, on which occasion she will appear in her favorite character of "Camille." Mrs. S. has contributed vastly towards the amusement and edification of our townspeople since her arrival in our midst. The play is one of the finest productions of modern times, and is founded upon a truthful and affecting tale by Alexandre Dumas, Junior.

IN AGAIN.—Poor "Scotty" is in again. He was arrested on Friday for taking possession of a man's store, and sent to the chain gang for one month. John Butts is also in quod. The charge against him of selling whisky to Indians was fully sustained, and he will do good service in repairing roads for the next three months.

DISCHARGED.—A. F. Holcombe, arrested on Friday, on a charge of having stolen a canoe from one Robert Moore, was on Saturday morning discharged by the police magistrate, no evidence sufficient to convict him being adduced.

FOOT RACE.—Knox, the pedestrian, and a resident of Victoria, are to run a foot race on Tuesday next, at Beacon Hill Course, for $300 aside. The distance is eighty yards, and Knox gives his competitor five feet.

☞ The only arrest made yesterday by the police, was that of a drunken Indian, with a remarkably dirty face, who was extricated from a mud-hole, into which he had fallen, and taken to the barracks.

☞ There were 35 prisoners in jail, yesterday morning.

Miscellaneous Items.

We extract from late files, received per Oregon, the following interesting miscellaneous items:

"Burleigh," the New York correspondent of the Boston *Journal*, says that the present rage for visiting and invitations in New York is this: If a wedding is to come off among the ton, the mother of the bride elect takes her carriage, and instead of sending a servant up the steps as formerly, the lady alights, goes to the door, rings, asks for the party invited, hands a card of invitation, and then drives off in her coach. It is regarded as a distinguished honor to have such a semi-personal invitation.

Prof. Ingraham, Rector of Christ Church, Holy Springs, Miss., was accidentally shot at his residence, when he was handling a pistol. He was wounded in the thigh, and was not expected to survive. The Professor was formerly a "blood and thunder" novelist, and was well known in Boston.

As showing the state of public feeling existing in Georgia, the Augusta papers state that a vote was taken on a train near that city, by the Methodist Ministers returning from a late conference held in that State. The vote stood for secession 87, against it 9.

Prof. Morse has just received from the King of Portugal the Cross of Chevalier and the Order of the Tower and Sword, being the fifth title of that character which has been bestowed upon him by European sovereigns for his invention of the telegraph.

Marshal Vaillant had been created Minister of the household of the Emperor of the French.

It was stated that no one in France was aware of the Emperor's purpose respecting the decree relative to the Constitution till he revealed the document to his astonished ministers in council, where it met with some opposition.

Count Persigny had presented letters of recall to the English Court and returned to Paris.

An explosion of firedamp took place on 1st December last, at the Black Vein Pit, about six miles from Newport, Wales, the property of the Risca Coal Company, when 170 men and boys, out of 200 who were in the pit at the time, lost their lives.

We have evidence that the piano-forte was known in England about 1767, as it was introduced that year on the stage of Covent Garden Theatre as a "new instrument." An old play-bill, in the possession of Messrs. Broadwood, bearing date the 16th of May, 1767, setting forth the performance of "The Beggar's Opera," containing the following notification: "End of Act I. Miss Brickler will sing a favorite song from "Judith," accompanied by Mr. Dibdin on a new instrument called the Piano-forte."

The London *Times*, of Nov. 21st, regrets that Mr. Lincoln will have the services neither of Mr. Webster nor Mr. Everett in his Cabinet, those gentlemen having allied themselves with his opponents. Thereupon the Boston *Transcript* observes: If Lord Derby be made Prime Minister of England, we understand that neither Fox, Pitt, nor Burke will go into *his* Cabinet.

COLLEGE HAZING.—The process of "hazing," which the Faculty of Harvard College recently punished by expulsion, is thus described:

You send your boy of sixteen, seventeen, or eighteen years to college. He enters the Freshman class. Away from home, among strangers, perhaps a little home-sick, he appears "green" or "spooney." But he minds his own business, and knuckles to his task. Not so with the impudent fellows of the class above him. These Sophomores immediately conceive the idea of "putting through" your boy. They have various ways of doing this. They take him of a cold night and put him under a pump, and, after he is well wet and chilled, let him go home to his bed and a sore throat; or, perhaps, they will get him into a room, and there try to "smoke him out," by burning tobacco in the stove and keeping up a continual puffing of cigars and pipes, and when they find him becoming pale and sick, leave him with laughter. Or, if he is a nervous or sensitive boy, they will try to frighten him out of his wits by compelling him to go blind-folded into a darkened room and then show him hideous things. There are various other ways of "hazing," such as ducking in a tub of cold water, getting the novitiate drunk, etc.

If the boy has courage enough to resist these outrageous insults, he is told that the result of resistance will be discomfort and annoyance during his whole college life, and we have known instances where this was the case.

You will be likely to ask in what part of the "joke" "the laugh comes in?" and your boy, of course, feels inclined to put the same question, and so do we. They have carried this thing so far in Harvard College, that in one or two cases lives are endangered, and the students were unable to do any study during the whole term. The Faculty of the college, therefore, made an example of eight sophomores, who were caught "hazing" some poor freshmen, and gave them leave of absence for a year, to learn at home less brutal manners.

CHURCH-YARD GLEANINGS.—In a very obscure churchard in Yorkshire, there is the following elegy:

Here I lie,
Killed by a sky-
Rocket in my eye.

Emulous of the praise which the above ingenious composition received from the rustics of the village, a rival rhmyster, on the death of a poor hostler who was driven over, produced two lines which supplied the place of an elegy:

Here I lays,
Killed by a chaise.

In Hertford church-yard is the following:

WOMAN.

Grieve not for me, my husband dear;
I am not dead, but sleeping here;
With patience wait, prepare to die,
And in a short time you'll come to I.

MAN.

I am not grieved, my dearest life;
Sleep on; I've got another wife;
Therefore, I cannot come to thee,
For I must go and live with she.

FEMALE SOCIETY.—Apart from the wonderful stimulant of sympathy, there is nothing in the world that so takes a man out of himself and diverts his thoughts from the toils and cares of his daily life as the society of women, even though they know nothing and care nothing about his work. This has all been said a thousand times before in prose and poetry, more eloquently and more forcibly than I could hope to say it, if I desired to make the most of the fact. I will only, therefore, observe here that it will commonly be found that men who, spite of much hard work, wear their years lightly, are men who delight in female society, and are popular with the other sex.

A VERY LONG NOSE.—In 1784, Mrs. Siddons, "then in the prime of her glorious beauty, and in the full blaze of her popularity," sat to Gainsborough, the famous painter. The portrait is a three-quarters length. She is seated; her face appears rather more than in profile; she wears a black hat and feathers, and a blue-and-buff striped black dress—in a mass resembling dark sea-water with sunshine on it. Two years before the death of Mrs. Siddons she was seen by Mrs. Jameson seated near her picture; it was like her still at the age of seventy. Gainsborough, however, found some difficulty in delineating her features—the nose especially; after repeatedly altering its shape, he exclaimed —"Confound the nose, there's no end to it!"

THE BRITISH COLONIST

Saturday Morning, Feb. 2, 1861.

LOCAL INTELLIGENCE.

Court of Assizes.

FRIDAY, Feb. 1st, 1861.

The Court met at 10½ o'clock, a. m.

TRIAL OF A WRECKER.*

James Hillborn was placed on trial on an indictment charging him with having stolen a quantity of goods from the wreck of the Nannette. Several witnesses were examined, and the case having been given to the jury they returned in a few moments with a verdict of "Not Guilty." Attorney General Cary for the prosecution; D. B. Ring and J. E. Dennes, Esq., for defence.

GRAND JURY REPORT.

The Grand Jury came into Court about one o'clock, and presented their report to the Chief Justice [published in another column.]

TRIAL FOR MURDER,

—Bernard, a half-breed Indian, was placed at the bar on an indictment charging him with the murder of a Nanaimo Indian, named Quam on the 10th ult. He pleaded "Not Guilty," and a jury was empanelled.

Attorney General Cary stated to the Court that owing to the absence of all medical testimony in the case, he did not feel prepared to go on with it

His Lordship said it was too late for a postponement as the jury had been empanelled.

The Attorney General then informed the Court that it would be impossible for him to prove the nature or extent of the wounds from the depositions before him; and that the case had not been sent up to him by the committing magistrate in a shape that would insure conviction.

Mr. Ring, for the defence, said that the deceased had been seen to fall several times to the ground, striking his head heavily, and his body was found lying near the spot where he was last seen to fall.

Upon the assurance of the Attorney General that a conviction could not be had, the Chief Justice instructed the jury to bring in a verdict of "Not Guilty," which was accordingly done and the prisoner discharged.

The Court was then adjourned till Monday next, 4th inst., at 10 o'clock, a. m.

COURT OF INQUIRY.—The Naval Court of Inquiry into the circumstances attending the loss of the bark Nannette, was continued yesterday. Capt. Main, late commander of the unfortunate vessel, was placed on the stand, and testified that he had been ill for eight or ten days with dysentery and bilious attacks. He was totally unable to take any part in navigating the ship from the time she reached the Straits, and knew nothing of Dungeness Light, as it was not down in the chart. He was perfectly satisfied with the competency of the first mate and intrusted the ship entirely to his care. At six o'clock on the evening of the wreck he was on deck for about a quarter of an hour, but was in bed when the ship struck. After the vessel had struck he was not able to dress or get into the boat without assistance. At the conclusion of his evidence, the members of the court informed Capt. Main that they did not hold him to blame for the loss of the vessel. Other witnesses were examined, and the court decided that Capt. Main was in no manner to blame for the loss of the bark, and that the mate was only guilty of an error of judgment in having weighed anchor when informed that he might do so with perfect safety by the light-house hands.

THE LIST OF VOTERS.—The list of the voters who had registered their names at the Sheriff's office up to the 25th ult., was exhibited yesterday. From it we learn that the total number of persons so registering is 323, distributed as follows: Victoria Town, 179; Victoria District, 37; Esquimalt Town, 23; District of Esquimalt and Metchosin, 19; District of Nanaimo, 29; District of Salt Spring Island and Settlement of Chemainos, 10; District of Lake, 15; District of Saanich, 11. The number of names registered is much greater than expected by the most sanguine politician, owing, we suppose, to the large number of colored persons who have become voters. The first sitting of the Court of Revision will be held in a few days.

PROROGATION.—The House of Assembly will positively be prorogued on Wednesday next, 6th inst., at 2 o'clock in the afternoon, by His Excellency Governor Douglas. The precise time for which the members will have a holiday, is not stated; but it will probably last about four months. They are certainly deserving of a play-spell. They have worked so hard for their country, no one, it is to be hoped, will be found so hard-hearted as to begrudge them a little leisure.

FIGHTING.—A white man and a colored man, having more whisky aboard than is advisable as a general thing, fell to fighting at the corner of Johnson and Government streets last evening, and were nabbed by Sergt. Blake and special officer Phillips, of the police. The negro went along quietly to the station-house; but the white man resisted, and it was not until a posse of policemen arrived that he was taken in. He made a great noise and attracted a considerable crowd.

ABOUT A CANOE.—A. F. Holcombe was arrested by officer Welch night before last, on complaint of Robert Moore, who accuses him of having a canoe in his possession belonging to the complainant. This case will be heard to-day.

TRUE BILL.—The Grand Jury on Thursday returned a true bill against Jacob Fried for perjury.

Report of Grand Jury of Vancouver Island.

FEBRUARY 1, 1861.

The Grand Jury respectfully represent to the Honorable Court in session the following points for the serious consideration of the judicial authorities of Vancouver Island.

The Grand Jury complain of the laxity with which Indictments of the gravest nature have been submitted to them, and they demand as a Public Right that the patent errors now complained of shall be in future guarded against.

In thus commenting on the condition of certain of the Indictments submitted to them, the Grand Jury have no intention to reflect invidiously upon the action of the Attorney-General, whose zeal they are desirous to acknowledge, and whose legal ability they in no wise impugn. They are satisfied moreover that some of the discrepancies complained of have originated from faulty copies of the depositions upon which these Indictments have been framed. They are desirous, however, of expressing in the most respectful, and at the same time most forcible, terms their opinion that from want of sufficient clerical aid, or from other causes, the public interest in the cases alluded to have not been sufficiently protected.

The Grand Jury claim for future Grand Juries the right, which during their present session has been questioned, of demanding the attendance of the Attorney-General in the grand jury room, to advise them as to any points of Law, which may come in question during the progress of their deliberations.

In the absence of any municipal incorporation of the Town, the Grand Jury have no alternative than to direct the attention of the Government to certain subjects of local importance:

1st, A committee of the Grand Jury have visited the public jail, and they report favorably as to the general condition of the prisoners, but they represent that the accommodations are quite insufficient even for those now confined; they, therefore, represent the necessity of more extensive accommodations being provided; they also represent the immediate necessity of certain repairs of the jail—more specially indicated in the report of the committee submitted herewith as as part of this report.

2d. The same committee being autorized to visit the Royal Hospital, report favorably as to its general condition, but they represent at the same time the necessity of certain measures tending towards the perfection of this important public institution, and for which the funds appear to be wanting. Their special report, together with that aforementioned, is likewise submitted herewith.

3d. The attention of the Government is directed to the neeessity of a police station at Esquimalt. The Grand Jury recommend this the more strongly, in view of a recent case which has been brought before them, wherein it has been made apparent to them that the presence of a legalized civil authority would have obviated serious consequences deeply affecting the peace and well-being of the community.

4TH. The Grand Jury beg to direct attention to the condition of the graveyard in the centre of the town. The necessity of its removal has been long apparent, and the Grand Jury trust that under every consideration, public and private, it will no longer be delayed.

5TH.—In view of the present condition of this town and its insufficient protection against the risks of fire, the Grand Jury recommend the appointment of Fire Wardens, whose duty it shall be to see that all stove-pipes or other appliances affecting the interests of the community, as regards fire, shall be duly attended to, under their direction.

The Grand Jury having concluded their duties, respectfully request to be discharged.

(Signed) ALEX. C. ANDERSON,
Foreman.

MINUTE.—Since the above Presentment was signed, a petition of certain parties in regard to the condition of the Esquimalt road, has been handed in, which the Grand Jury beg to submit for the favorable consideration of the government.

A. C. ANDERSON, Foreman.

Upon the presentation of the report His Lordship addressed the jury, and said that they should have indicted the district of Esquimalt for not keeping the road in good condition; and that if there was cause of complaint against any officer of the Crown, he should have been indicted, and not presented. His Lordship also stated that if the people of Victoria wished their town incorporated, they could easily accomplish their object by calling a public meeting and organizing under the English Municipal Law. The Grand Jury, he said, had exceeded their duty by visiting the hospital; that was a private institution, supported by private subscription, and the authorities had nothing whatever to do with it. His Lordship concluded by remarking that Grand Juries should confine themselves to the consideration of certain limited points, which he proceeded to define. Alex. C. Anderson, Esq., the Foreman, replied that if such were the case, it appeared to him that the duties of Grand Juries were completely neutralized. After some further remarks from his Lordship, the jury were discharged.

INDUSTRIAL DEPUTATION.—We learn that a deputation of gentlemen who take a deep interest in the prosperity and progress of the country, waited upon His Excellency by appointment yesterday, to confer on the most practicable means of representing the industrial resources of these colonies in the World's Fair in 1862. The deputation was courteously received by His Excellency, who assured them of his hearty concurrence and promised to extend every assistance in his power in order to bring it to a successful issue.

TRADES' LICENSES ACT.—This is the last day upon which licenses under this Act can be taken out. It therefore behooves traders to call at the Treasury and settle in order to save additional expenses in the shape of Sheriff's fees, etc.

VICTORIA THEATRE. — Last evening "Richard the Third" was performed to a good house. Mr. Stark in the *role* of Richard, was impressive and grand. The carefully studied and correct manner in which he rendered the text, was the subject of general remark and applause. Mrs. Stark, as the Queen, added a host of new admirers to those heretofore acquired, and, we are free to say, fully deserved the frequent expressions of approbation she encountered during the progress of the piece. As Richmond, Mr. Phelps, deserves much praise; —he was correct and seemed at home in the part. Miss La Ross Russum, as Lady Anne, gave entire satisfaction; and Mrs. Hamilton's Duchess of York was energetically and well rendered. The attractive afterpiece of "The Secret," concluded the entertainment. This evening, Mr. Phelps, a general favorite, will take a benefit. On Monday evening Mrs. Stark is underlined for a benefit, on which occasion "Camille" will be offered.

BENEFIT OF MR. A. R. PHELPS.—We believe we need only state the fact that Mr. A. R. Phelps will take a benefit at the Victoria Theatre this evening, to insure a full house. Mr. Phelps, during his short stay among us, has made many friends. He is ot only a most excellent actor, but a worthy man, and is truly deserving of the benefit which is tendered him by a large and respectable portion of our fellow citizens. On this occasion "King Henry the Fourth," and the "Irish Dragoon," both sterling pieces, will be presented. Let the house be crowded.

VICTORIA LIGHT. — We hear continual complaint from shipmasters regarding the absence of a light at the entrance of the harbor. The Esquimalt light will answer very well to mark the entrance of Esquimalt harbor, but is of no use to us of Victoria. As the House is about to be prorogued it might be as well for one of the honorable members to inquire as to the whereabouts of the bill providing for the erection of a proper lighthouse, which passed the Assembly months ago.

THE VESSELS ASHORE.—The bark W. F. Wood and schooner Eclipse, the vessels that went ashore on Thursday, floated off yesterday. It was found they had sustained no material damage from the rubbing they received while on the rocks. Yesterday they commenced discharging their cargoes at the wharves. These accidents should cause masters of vessels visiting the harbor in future to take pilots. No commander should jeopardize the safety of his vessel or cargo, by running any risk, not unavoidable, in a strange harbor.

NOT A FRENCHMAN.—We are informed that Noel LeClerc, the man convicted of perjury on Wednesday, in the Court of Assizes, is not a Frenchman, but a native of the Canadas, and of French descent. He hardly speaks a word of English, hence the mistake made as to his nationality.

☞ The jailor reported 34 prisoners in jail yesterday morning.

END OF THE WAR IN CHINA.

By the arrival of the bark R. W. Wood, from Hongkong Nov. 10th, on Thursday, we learn that the war in China is at an end.

The allies had succeeded in obtaining a favorable treaty from the Emperor, and the troops were retiring from Pekin.

Full indemnity has been accorded the allies by the Chinese Government, for past outrages.

Tein-tsing, at the mouth of the Peiho, will be the headquarters of the allies for the winter.

The Peiho river will be open to the navigation of French and British vessels.

The Taku forts are to be dismantled.

The amount of plunder obtained by the soldiers was enormous, and some of them have been enriched by the seizures they made.

The Sepoy regiments had suffered severely from exposure, and many of them had died. The Europeans stood the climate well.

At last accounts the troops were coming down the river, and all was quiet.

NOTICE TO MARINERS.

LIGHT HOUSE
ON
FISGARD ISLAND, ESQUIMALT HARBOR,
VANCOUVER ISLAND.

COLONIAL SECRETARY'S OFFICE,
Victoria, 1st. December, 1860.

NOTICE IS HEREBY GIVEN, THAT A Light is exhibited in the Light House recently erected on the summit of Fisgard Island.

The Light is fixed, and of the fourth order of Fresnel: Shows bright when bearing from N. 2 W. to N. 60 W.
" red " " " N. 60 W. to S. 6 E.

Is elevated 70 feet above mean High Water Level, and may be seen in clear weather 10 miles.

(The bearings are magnetic.)

The structure consists of a keeper's dwelling of brick, with a tower of the same material whitewashed, surmounted by an iron lantern painted red.

It is situated in Latitude..... 48° 25′ 38″ N.
" " Longitude..... 123° 27′ 10″ W.

The following directions for Esquimalt and Victoria, compiled by Capt. Richards, are herewith published for general information.

By command of His Excellency the Governor,
WILLIAM A. G. YOUNG,
Acting Colonial Secretary.

DIRECTIONS FOR ESQUIMALT AND VICTORIA.

The Light Tower on the Race Rocks is completed, and the light, (which is a flashing one every ten seconds) will probably be exhibited in the course of a few weeks. The height of the lantern above the sea is 118 feet. The Tower can be distinctly seen at the distance of 12 miles, and vessels should round it at a distance of from half a mile to a mile; the most off lying danger is a rocky patch of 5 feet, lying S. E. by E., distance between 3 and 4 cables from the Great Race.

On rounding the Race Islands, Fisgard Island Light will be seen, and should be steered for, on a bearing N½ W., which will lead clear of the reef, extending a short distance off Albert Head.

The precautions to be observed are, to keep the bright light in full view; if a vessel gets too far to the Westward it will appear dim, and shortly become entirely shaded, when she should immediately steer out to the Eastward, until it again shows bright.

This precaution is especially necessary on account of the tides, which, during spring, run as much as 6 knots in the neighborhood of the Race Rocks; the ebb runs almost in a direct line from Haro Strait to the Rocks, and sets between them and the shore; there are also tide races in the vicinity, dangerous for boats or small craft.

When above Albert Head, and desiring to anchor in Royal Roads, a vessel should bring the Light to bear N. by W., when she will have 10 fathoms, good holding ground; or, if desired, she may stand to the Westward, until the light becomes shaded green, when she should *immediately* anchor.

Entering Esquimalt Harbor, the light should be left from one to two cables lengths on the port hand, and when it bears S. by W. at a convenient distance, a ship may anchor in 7 fathoms, or stand into Constance Cove if preferred.

When the light bears N. W. by W. in entering, it changes from bright to red, and shows the latter color within the harbor.

Entering Esquimalt from the Eastward, the light should not be steered for, until it shows bright, which is the mark for clearing Brotchy's Ledge, and the Scrogg Rocks; when the light changes from red to bright, it leads about half a cable clear of the Scrogg Rocks.

The course for the entrance of Victoria Harbor, after rounding the Race Light House, is N½ E., (allowing for tides), and when Fisgard Island Light changes from bright to red, a vessel will be scarcely a mile from the shore.

Ships, however, above the size of coasters, unless acquainted with the neighborhood, are recommended not to run for Victoria Harbor at night, when they would not be able to enter; but rather to anchor in Royal Roads for daylight; with Southeasterly winds and stormy weather, a ship should invariably run into Esquimalt Harbor, which she can do with great facility by the assistance of the light on Fisgard Island.

GEO. HENRY RICHARDS,
Captain H. M. Surveying Ship Plumper.

NOTICE TO MARINERS.

LIGHT HOUSE
ON
RACE ISLAND, STRAIT OF FUCA,
VANCOUVER ISLAND.

COLONIAL SECRETARY'S OFFICE,
Victoria, 1st January, 1861.

NOTICE IS HEREBY GIVEN, THAT A Light is exhibited in the Light House recently erected on the Great Race Rock.

The Light is of the second order of Fresnel:

And exhibits a bright flash every ten seconds; it is elevated 118 feet above the mean high water level, and may be seen in clear weather 18 miles.

The structure consists of a keeper's dwelling of stone, with a tower of the same material.

It is situated in Latitude..... 48° 17′ 45″ N.
" Longitude..... 123° 32′ 15″ W.

The following directions, furnished by Capt. Richards, are herewith published for general information.

By command of His Excellency the Governor,
WILLIAM A. G. YOUNG,
Acting Colonial Secretary.

CAUTION.

As strong tides and races occur in the neighborhood of the Race Rocks, they should not be rounded nearer than from half a mile to a mile.

A reef with 5 feet of water lies SE. by E. from the Great Race, distant 3 or 4 cables.

The Race Passage (between the Rocks and Bentick Island) may be used by steamers acquainted with the locality, but sailing vessels are by no means recommended to use it unless with a commanding breeze.

The ebb tide sets directly from the Haro and neighboring channels toward the Race Rocks, and vessels upward bound with the ebb, should give them a good berth before shaping a course for Esquimalt or Victoria Harbor.

From a mile off the Race Rocks a course N½ W. leads to Esquimalt.

While the Light on Fisgard Island, at the entrance of the Harbor, shows bright, a vessel is always in safety; if it becomes dim or shaded, she will be too far to the Westward, and should immediately haul out; when it shows red, she will be getting very close to the coast between Esquimalt Harbor and Trial Island.

GEO. HENRY RICHARDS,
Captain H. M. Surveying Ship Plumper.

Worcestershire Sauce.

PRONOUNCED BY CONNOISSEURS TO BE THE Only Good Sauce, and applicable to EVERY VARIETY OF FISH.

EXTRACT OF A LETTER from a MEDICAL GENTLEMAN at Madras, To his Brother at WORCESTER, May, 1851

"Tell LEA & PERRINS that their Sauce is highly esteemed in India, and is, in my opinion, the most palatable, as well as the most wholesome Sauce that is made."

EXTENSIVE FRAUDS.

L. & P. having discovered that several of the Foreign Markets have been supplied with SPURIOUS IMITATIONS of the "WORCESTERSHIRE SAUCE," the labels of which closely resemble those of the genuine Sauce, and in one or more instances with the names of L. & P. FORGED, they have deemed it their duty to caution the public, and to request purchasers to see that the names of LEA & PERRINS are upon the Wrapper, Lable, Stopper and Bottle.

L. & P. further give notice that they will proceed against any one who may infringe upon their right, either by manufacturing or vending such imitations, and have instructed their correspondents in the various parts of the world to advise them of such infringements.

FACULTIES CONNECTED WITH BODILY ACTIONS.—Whether it be true (as some eminent physiologist maintain) that these powers—and also the rest of our faculties and propensities—are connected with certain distinct portions of the brain, is a question not to be treated of here. But certainly it does appear that several portions which, in common language, seem to be referred entirely to the eye and the hand, do in reality depend more on some qualities of the hand than on the external organs. Some years ago, a lady of the name of Beffin exhibited publicly her truly wonderful performances. She was born without arms or legs, having only in their place short stumps. Yet she performed the works of the most accomplished woman—better than most; and was what would have been called, if she had been formed like other people, uncommon handy. She threaded her needle with her mouth, and used it in the most delicate embroidery as well and as quickly as the best needle-women. She wrote well and rapidly; and she supported herself by painting, using, in all these works, no implements different from the ordinary ones.

☞ A certain barrister, who was remarkable for coming into court with dirty hands, observed "that he had been turning over Coke." "I should think that it was coals you had been turning over," observed a wag.

☞ A Frenchman, wishing to speak of the cream of the English poets, forgot the word, and said, "de *butter* of poets." A wag said that he had fairly churned up the English language.

☞ A writer in one of our exchanges speaks of a friend of his that has always been accustomed to the pen. Is the friend an author or a pig?

☞ It is said that the hunger for gold generally increases with age. That's why, we suppose, so many old people always "have it in their mouths."

☞ A schoolmaster in Texas advertises that he is prepared to teach the juvenile undergrowth of that country how to shoot.

☞ Roast beef, serenity of mind, a pretty wife, and cold water baths, will make most any man healthy, wealthy, and wise.

☞ We seldom find people ungrateful so long as we are in a condition to render them service.

HEALTH FOR A SHILLING!

Holloway's Pills.

Headaches, Bile, Loss of Appetite, and Lowness of Spirits.

These Pills require no interruption of business or pleasure; they act mildly on the bowels, strengthen the stomach, and promote a healthy action of the liver, whereby they purify the blood, cleanse the skin, brace the nerves, and invigorate the while system. They effect a truly wonderful change in debilitated constitutions, as they create a healthy appetite, correct indigestion, remove bile, giddiness, headaches, and palpitation of the heart.

Weakness and Debility.

In cases of debility, languor, and nervousness generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease; reestablish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigor. They increase the appetite, while they secure perfect digestion to all ordinary food, and release the invalid from restraint in diet.

A Word to Females.

There are two periods, especially in Woman's life, which require for safe passage, judgment and attention. Irregularity is apt at those critical times to take place, and to lay the foundation of future disease These Pills, safe in action, and effective in result, should be taken at certain periods, and the issue will be marvellous both to the young and the middle aged. They prevent nervousness, hysterics, dropsy, and a host of similar serious disorders, by expelling all impurities from the system, therefore none should ever be without them.

Coughs, Colds, and Asthmas,

No medicine will cure colds so quickly as these Pills, when of long duration or settled on the chest, or even though it has assumed the first stage of asthma, they may be relied on as a certain and never failing cure, particularly if the Ointment be well rubbed into the chest and throat night and morning. If this catch the eye of any asthmatical person so bad as even not able to lie down in bed, let him well use these two preparations for only a week, and the result will be marvellous.

Blood to the Head--Diseases of the Heart.

More persons die suddenly from diseases of the heart than the unlearned suppose: in such complaints, the bowels should always be kept well open, as also where there is a tendency of blood to the head. These celebrated Pills purify the blood in an extraordinary manner, and should be taken in copious doses when such symptoms occur, taking care not to overload the stomach; by this means all danger is quickly averted.

Children's Complaints.

It is not generally known, but such is the fact, that children require medicine oftener than their parents Three-fourths of the children die before they attain the age of eight years. Let mothers, then, be wise, and give to their children small doses of these invaluable Pills once or twice every week, in such quantity as may act gently upon the system twice in the twenty-four hours. For infants, a Pill may be crushed and given as a powder in a little water The gross humors that are constantly floating about in the blood of children, the forerunners of so many complaints, will thus be expelled, and the lives of thousands saved and preserved to their parents.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague	Dropsy	Inflammation	Sore Throats
Asthma	Dysentery	Jaundice	Stone and Gravel
Bilious Complaints	Erysipelas	Liver Complaints	Secondary
Blotches on the Skin	Female Irregularities	Lumbago	Symptoms
Bowel Complaints	Fevers of all kinds	Piles	Tic-Douloureux
Colics	Fits	Rheumatism	Tumours
Constipation of Bowels	Gout	Retention of Urine	Ulcers
Consumption	Head-ache	Scrofula, or	Venereal Affections
Debility	Indigestion	King's Evil	Weakness, from whatever cause
	Worms of all kinds

Two Children Cured of Scrofula.

Cincinnati, March 4, 1859.—Messrs. A. L. Scovill & Co.—Dear Sirs: This is to certify that my two children have been afflicted with SCROFULOUS ULCERS. I tried your Blood and Liver Syrup, which cured them in a remarkably short time. My wife has been afflicted for many years with the most troublesome disease—Tetter and Rheumatism—and has used a good many remedies, which have failed to cure her; this remedy has made a radical cure. If any one wants a medicine for purifying the blood, they will find the above named among the best now in use.

JAMES G. MISENER,
Formerly of the firm of Trainer & Misener,
Two doors below the Gibson House.

Scovill's Blood and Liver Syrup is warranted not only to cure Scrofula, Tetter and Rheumatism, but all humors of the system, such as sores and pimples on the skin, scald-head, etc.

Hostetter's Celebrated Stomach

Bitters.—No medicine has ever achieved a higher reputation. In every section of the country its merits are known and fully acknowledged. The leading physicians in the country have expressed their warm approval of this preparation, as uniting all the best qualities of a tonic and invigorator, without kindling an appetite for alcoholic liquors In cases of diseases of the digestive organs, to which all unacclimated persons are from necessity, exposed, as the proper diet cannot at all times be had, the Bitters will be found to be the quickest corrective and most reliable remedy yet discovered. Diarrhœa, Dysentery, and the various bilious and intermittent fevers all yield to the curative properties of this medicine. No person should be without the Bitters a single day.

Greeleys' Bourbon Bitters.

THE POPULARITY OF THESE BITters is justly due to the purity of the materials of which they are prepared, and the delicate combination of simple alteratives and tonics so well calculated to act upon every part of the digestive organs, and through them to reach and cure all complaints arising from a diseased condition of the Stomach and Bowels.

Mokelumne Hill, Cal., June 16th, 1858.

Having suffered for fifteen years with Dyspepsia, in its worst form, and having consulted with the best physicians, and tried everything recommended without relief, I was induced to try the Oxygenated Bitters, and before I had taken one bottle I found myself much better, and continued taking them until I was entirely cured, and now enjoy as good health as I ever did in my life.
